ious years, the exports in March, 1851, were large, but he principal increase was in specie. The aggregate ex-1851. \$6,600,674

This increase is not so favorable as it appears from a comparison of the figures; but the value of domestic produce exported in March, this year, exceeds that for excepting the year of famine in Great Britain. The shipments, this year, have been well distributed. We have not noticed, this year, any important feature in our export trade. There is no demand abroad, out of the usual course of things, for any of our great staple products. Prices, we believe are remunerating, and the

constwise, and 140 foreign; clearances, 122 foreign, 275 constwise. The imports of gold for the same menth. \$3,700. The receipts from customs for March, were \$826,-293, an excess of \$180,000 over the corresponding month of 1850. The value of merchandise imported into Bosof merchandise exported during the same period, \$1,514,-

It will be seen by the annexed statement that the amount of Treasury notes outstanding on the first of April, 1851, was quite small, and that the outstanding notes were principally of issues prior to July 22, 1846:—

TREASURY NOTES OUTSTANDING IST APRIL, 1851.

TREASURY DEPARTMENT, REGISTER'S OFFICE, 2 April 1, 1851.

Amount outstanding of the several issues prior to 221 July, 1846, as per records of this office.

\$136,911 64

Amount outstanding of the issue of 224 July, 1846, as per ditto.

22,600 00

Amount outstanding of the issue of 28th January, 1847, as per ditto.

23,450 00

Deduct cancelled notes in the hands of ac-counting officers, of which \$150 is under acts prior to 22d July, 1846, and \$100 under act of 28th January, 1847,

The notes issued prior to July 22d, 1843, bear but a nominal rate of interest, and are, therefore, very convenient ter the purposes of commerce. Being of equal value in all sections of the Union, they are used as remittances between merchants. This accounts for their not being presented for redemption, and we have no doubt it will be a long time before they will be cancelled. It can be seen

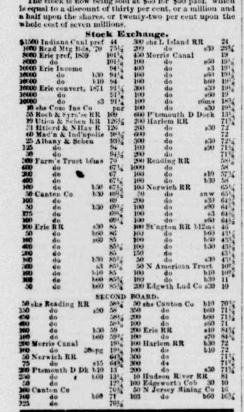

try. These notes are so easily negotiated, so well known in the commercial community, that they are sought after and kept in pretty active circulation.

The receipts of the Vermont Central and Canada Railroads, in the month of February, were rising \$40,000, which is quite encouraging, considering the season of the year. It is estimated that \$60,000 income per month will yield six per cent dividends to the stockholders:—

Version Central Rathroad.

COST.

The stock is now being sold at \$55 for \$50 paid, which is equal to a discount of thirty per cent, or a million and a half upon the shares, or twenty-two per cent upon the whole cost of seven millions.

DR. CHRISTIE'S GALVANIC CURATIVES POSSESS A great peculiarity and excellence, which consists in the fact that they arrest and cure discusse by outward application, in place of the usual mode of drugging and physicking the patient, till exhausted nature sinks hopelessly under the infliction. They strengthen the whole system, equalize the circulation of the blood, promote the secretions, and never do the slightest injury under any streumstances. Since their introduction in the United States, only three years since, more than 75,000 persons, including all ages, classes and conditions, among which were a large number of ladies, who are peculiarly subject to nervous complaints, have been entirely and permanently cured, when all hopes of relief had been given up, and everything cles had been tried in vain.
